

Sotar 20/20...of heavenly vision perfected, only the true soul sees of the limitless beauty that is beyond.

The luxuriously streamlined vehicle winds through the smooth twisting road of a sculpted mountainside, behind the wheel flows adrenaline. You feel, become, are, one with the automobile. The glide of the eagle as it soars through its sky with graceful force. Your exhilaration as you join in flight with the majestic being held in your gaze. You feel its flow, its vision, its freedom. The sense of performance, precision, forceless control as the trigger slides back and vision transfers from soul to surface. These are the sensations of the airbrush artist only to be known, felt, in use of the instrument of artistic creation that is SOTAR 20/20.

Whether an illustrator seeking undetectable gradation of colored realism, or a master miniature artisan placing the visionary gleam in the fantasy figure's eye, no airbrush will provide control, capability, performance, as that of the SOTAR 20/20.

To use the SOTAR 20/20 is to know, to feel, a performance of airbrush beyond the senses of earthly realms.

Only from BADGER AIR-BRUSH CO., American Made Airbrush Excellence!

Illustration art of Adriano Alberto Ayerbe

Historical figure art of James Craig

SOTAR FEATURES

- ~no thread micro tip nozzle
- ~patented easy needle release system
- ~1/1000" micrometer spray pattern setting system
- ~track and winged easy assembly back lever design
- ~one piece control ease trigger mechanism
- ~minimum/maximum spray pattern setting system
- ~ergonomic over-valve finger/thumb rest

SOTAR SPECIFICATIONS

DUAL ACTION / GRAVITY FEED / INTERNAL MIX

NOZZLE SIZE

FINE (F) = .2MM

MEDIUM (M) = .3MM

LARGE (L) = .5MM

LINEAR ANGLE

FINE (F) = 4°

MEDIUM (M) = 4.5°

LARGE (L) = 5°

ATOMIZATION SCALE

80 (F) — 120 (L) MICRON

SPRAY PATTERN RANGE

HAIR LINE (F) TO 1 1/4" (L)

COLOR CUP CAPACITY

1/8 oz. (4ml)

RECOMMENDED MEDIA

**INKS, WATERCOLORS, DYES,
PROPERLY REDUCED ARTIST ACRYLICS**
